

ADVISES SULZER TO EXPLAIN FULLY

Roosevelt Declares Governor
Owes It to Self and Supporters
to Answer Charges

COLONEL SPEAKS PLAINLY

States That Assaults Are Enemies of
the Public and That No Honest Motive
Animates the Proceedings

IS ASCRIBED TO CROOKED PLAY

ALBANY, N. Y., Sept. 4.—Colonel Theodore Roosevelt has advised Governor Sulzer to make a "full and straight forward explanation and answer in reference to the charges" that resulted in the governor's impeachment.

In a letter replying to two communications relating to the gubernatorial sent by the governor to the former president while he was traveling in the west, Colonel Roosevelt says:

"On my return from Arizona, I have received your two letters. I thank you for them. I believe I thoroughly understand the assault that is now being made upon you. I have yet to meet a single person who believes or even pretends to believe, that a single honest motive has animated the proceedings of your antagonists. From Mr. Murphy himself, to the legislators who obey his direction, there is no possible question that all of your assailants are the enemies of the public and that their aim is to acquire the evil domination of the state government and that the conspiracy against you has not one saving impulse behind it that can be ascribed to patriotism or vice spirit, or to anything save the basest impulse of crooked play. We have never seen a more startling example of the power of the invisible government under the present system. The extraordinary thing is that the 'conservative' upholders of this present system, should have witnessed the decrees of the invisible government carried out within twenty-four hours and who never-the-less denounce as revolutionary our proposal for changes in the form of government whereby the deliberate judgment of the majority of the voters may be executed within a space of time no shorter than that required for the execution of their deliberate judgment in the choice of a president of the United States.

"Let me add one thing, my dear governor. You owe it to yourself and to all those who have supported you to take the earliest opportunity to answer the charges made against you. That the purpose of those being the charge are wholly evil, I am sure that all honest men feel that those who are due to your having stood up for the principles of good government and decent citizenship, even when it was necessary to defy the will of the bosses of the two parties, and especially of your own and to stand in the way of success in the corrupt schemes of the party machines managers.

"But there is also among the honest men a desire for a full and straightforward explanation and answer in reference to the charges made against you and I very earnestly hope that as soon as possible the explanation and answer will be made."

U. S. ARMY AVIATOR IS DASHED TO DEATH

LIEUT. LOVE OF ELEVENTH CAVALRY
FALLS AT SAN DIEGO

Motor Starts When Officer is Vol-
planning to Earth—Nearly Every
Bone in His Body Was Broken and
Skull Fractured in Three Places.

SAN DIEGO, Cal., Sept. 4.—First Lieutenant Love, of the eleventh cavalry, U. S. A., one of the officers detailed to study aviation at the North Island camp here, was dashed to death early today when the airplane, on which he had been sailing shot to the ground from a height of about 250 feet. Nearly every bone in the officer's body was broken and his skull was fractured in three places.

Lieutenant Love rose for a flight at 7:35 o'clock. The day was ideal, there being scarcely a breeze. After flying around North Island for 20 minutes, the aviator circled for altitude until he reached a height of 2,000 feet. There he shut off his motor and volplaned until his machine was about 250 feet from the earth. Then he sought to descend, but in some manner the motor started. It drove the machine like a shot to the earth.

Lieut. Love meeting death at the camp from which he had ascended. The cause of the accident will never be positively ascertained, but aviation experts express the opinion that the lieutenant accidentally touched the motor clutch with his foot, the airplane pointing towards earth at the time. That the motor started was evidenced by a puff of smoke noticed by the watchers the instant the downward rush began.

The body of the dead officer will be taken to Fairfax, Virginia, leaving here tomorrow.

FIVE HUNDRED BELIEVED TO HAVE PERISHED IN HURRICANE

Ocracoke Island on Coast of North
Carolina Thought to Have Been
Wave Swept—Numerous Small
Towns Damaged.

Raleigh, N. C., Sept. 4.—J. C. Blades of Newbern, one of the state's leading lumber mill men, just back from Washington, N. C., declared tonight there is a feeling of certainty that Ocracoke Island, on the coast, had been wave swept in yesterday's hurricane and that not a living soul of the nearly 500 people of the island escaped. This belief was based on the high tide in Pamlico Sound and the ocean inundation.

Morehead City, Beaufort, Newbern, Washington, Bayboro, Bell Haven and dozens of other small towns on the coast are reported as having great losses from the fury of the gale.

Scenes of Desolation on Coast.
Charlotte, N. C., Sept. 4.—Scenes of desolation marks virtually the entire North Carolina coast as the result of the hurricane which struck this section yesterday. Dispatches just coming in over makeshift lines of communication indicate that the town of Bell Haven is wiped off the map while the town of Washington, N. C., not only suffered from the wind but also lost heavily by floods.

The loss in Beaufort county, in which Washington is situated, alone will exceed \$2,000,000. It is estimated tonight in this city more than 200 cattle and hogs were drowned and tonight their carcasses are lying in the streets, a serious menace to the public health.

Throughout eastern North Carolina growing crops are virtually a total loss and no estimate of the devastating effect of the wind and rain can be made tonight. It is believed, however, to be incalculable.

Schooner Driven Ashore.
Norfolk, Va., Sept. 4.—Driven ashore by the terrific storm which swept the Virginia and Carolina coasts Tuesday and Wednesday, the six masted schooner George W. Wells is a total wreck off the coast of Hatteras. The schooner was driven ashore yesterday. Twenty men, two women and two babies were rescued by the life savers.

Only meagre details of the rescue were received here but it is reported to have been the most thrilling in years. The Wells was bound in New York light.

An unidentified schooner with only one mast standing and no signs of life on board is ashore three miles north of Ocracoke inlet. A British oil ship is ashore a few miles further south.

New York Has Severe Storm.
New York, Sept. 4.—This city for four hours ending shortly after midnight tonight was in the grasp of one of the severest local storms of the year. Three and one-half inches of rain fell in that short time and lightning played among the skyscrapers, striking several roofs and setting one or two fires.

Taxicab service and trolley traffic were suspended for a while in parts of the city owing to the flooded condition of streets.

HEARING IN THAW CASE CONTINUED UNTIL FRIDAY

PRISONER, ON STAND MOST OF DAY
MAKES GOOD WITNESS

Is Practically Convicted of Entering
the Dominion by Stealth—Resents
Questions as to His Sanity—
Quotes Opinions of Alienists.

COATICOOK, Que., Sept. 4.—Harry K. Thaw was not "railroaded" across the border by the immigration authorities today as his counsel had predicted. A special court of inquiry sat on his case from 1 o'clock this morning until late this afternoon, then adjourned until half-past 9 o'clock tomorrow morning, when the prisoner will be recalled.

Thaw was on the stand most of the day and made a good witness. Unable to show he had come into the dominion at any recognized port of entry, Thaw was practically convicted of entering by stealth and on this charge alone he can be deported. But on this charge he could appeal to the minister of the interior, while no appeal would lie should he be found insane at the present time or to have been in an insane asylum within five years. If found of unsound mind now it is within the discretion of the board of deport Thaw direct to the New York state line or possibly to Rouse's point. This would mean swift and certain return to Matteawan. Conviction on either of the other two charges would mean deportation to Vermont.

Thaw resented keenly questions as to his sanity. If this were to be taken up, he contended, he should be allowed to have alienists present. Two physicians for the immigration authorities, Doctors Gurd and Beauchamp, were present.

When asked point-blank if he was sane or insane when he killed Stanford White, Thaw quoted with remarkable show of memory, from the conflicting opinions of the many alienists identified with his case and laconically suggested that the board take its choice.

The Thaw lawyers, despairing of defeating deportation, have at last begun to make plans for resisting extradition in Vermont. Counsel have been retained there, it is understood, and unless Thaw is sent out or "kidnapped" to the New York state line, the lawyers hope to fight on in the states.

T. R. E. McInnes of Ottawa, one of the fathers of the immigration law, joined the group of Thaw lawyers today. From now on he will seek to find a loophole in the law he helped to create.

Besides Thaw the witnesses today were Henry Johnston, a farmer who drove Thaw across the border; Octave Nadeau, a farmer who drove him to the inn of Caldeux at Bedford, where Thaw was arrested; and the inn-keeper himself. Their testimony was adduced to support the "entering by stealth" charge.

TWO NEW HAVEN TRAINMEN ARRESTED ON CRIMINAL CHARGE

Accused of Having Caused Death of
Royal H. Hoskiss, One of the
Victims of the North Haven Wreck

New Haven, Conn., Sept. 4.—August B. Miller, engineer of the White Mountain express and Charles H. Murray, flagman of the Bar Harbor express, the two trainmen involved in the fatal North Haven wreck on the New York, New Haven and Hartford railroad last Tuesday morning were formally placed under arrest by Coroner Mix late tonight, charged with having "criminally" caused the death of Royal H. Hoskiss, one of the victims of the disaster. They were both placed under \$5,000 bail under a coroner's warrant effective until 24 hours after the coroner has rendered a verdict in the inquest into the catastrophe, which he began in private today.

Bail for Miller was furnished by the local brotherhood of Locomotive Engineers and Firemen. Murray was locked up for lack of a bondsman.

Both men have been detained by the coroner in the county jail since the day of the wreck as material witnesses. The pair, who, it is said, have told widely conflicting stories as to the causes of the accident were examined separately.

EFFORT TO CARRY CURRENCY OVER TO REGULAR SESSION

Resolution to Direct Senate Com-
mittee to Withhold Its Report Un-
til December 2, to Be Brought Up
Today.

Washington, Sept. 4.—The senate was put upon notice today of an effort to carry the currency revision question over until the regular session when Senator Weeks a Republican member of the committee now conducting currency hearings, presented a resolution to direct the committee to withhold its report until December 2. The resolution will be brought up tomorrow and the Republicans will try to force the senate to a definite expression of opinion.

Carolina coast yesterday wrought havoc in this vicinity. Mail boats from Core Sound reported that all wharves from a distance of 25 miles had been destroyed, several houses blown down and hundreds of cattle and horses drowned. No lives were reported lost.

FIRST STEP TOWARD PEACE ACCOMPLISHED

President Adopts Attitude That
Huerta's Elimination from
Election Is Assured

ORAL ASSURANCES GIVEN

United States Will Construe Any Effort of
Huerta to Circumvent Legislation by
Resigning as Breach of Faith

LIND TO REMAIN INDEFINITELY

WASHINGTON, Sept. 4.—President Wilson and Secretary Bryan have adopted the attitude that the elimination of Victoriano Huerta from the presidential race in Mexico is assured and that the first step towards the establishment of peace in Mexico has been accomplished.

This was the authoritative declaration today of administration officials, who also let be known:

That oral assurances had been given Nelson O'Shaughnessy, charged d'Affaires of the American embassy, Huerta's intention not to be a candidate in approaching elections.

That the United States would construe literally the argument in the second note of Frederico Gamboa, Mexican minister of foreign affairs who pointed out at great length that a provisional president in Mexico is ineligible to succeed himself.

That any effort on the part of Huerta to circumvent the legislation by resigning in advance of the election in favor of another president would be considered by the United States as a breach of faith before the world.

Withdraws Demand in Effect.
Much stress was laid by the officials upon the withdrawal by Senator Gamboa in his second note of the original demand for recognition by the United States through the exchange of ambassadors. That the Huerta government had in effect withdrawn its demand for recognition is now held by many Washington officials, notwithstanding Senator Gamboa's declaration in the same note that he would always stand on the condition which declares that "we are in reality the ad interim constitutional government of the Mexican republic."

The Washington government does not disclose exactly the nature of oral assurances given Charge d'Affaires O'Shaughnessy within the last few days that Huerta does not intend to run for the presidency. Intimations of this character, however, have come to the administration from other sources.

The administration here however, having taken the view that the spoken and written word of the Mexican officials has eliminated Huerta from the presidential contest, are looking forward to the early negotiations of an armistice by the Mexican factions and the prompt holding of a constitutional election. While the United States will in no way interfere in the conduct of these elections, it will consider itself free to withhold recognition until after it has scrutinized the elections to determine if they had the approval of the Mexican people.

Lind to Remain Indefinitely.
John Lind, President Wilson's personal envoy, will remain in Mexico indefinitely. Should an opportunity present for carry forward the negotiations to other points in the first American note he is empowered to go to Mexico City to confer further with the Mexican officials.

William Bayard Hale, close friend of the President Wilson to day gave the latter the benefit of his three months' observation of Mexican affairs. It is stated that Mr. Hale had merely presented the facts and had made no recommendations.

Convicted of Mexican's Murder.
Globe, Ariz., Sept. 4.—Knox Laird was convicted by a jury tonight of the murder of Jose Perez at Miami on May 11. Perez, a Mexican, was stoned to death by a mob of Americans.

Testimony at the trial established the existence of "gang rule" at the mining town and the night Perez' death was discovered as a "night of error."

Robert Leary also charged with the murder of Perez will be put on trial tomorrow.

Laird was convicted of second degree murder.

Huerta Sends Representative.
Vera Cruz, Mexico, Sept. 4.—Prepared to play a role almost identical with that of John Lind, the personal representative of the United States, Manuel De Zamacoia, former ambassador at Washington sailed from here this afternoon and will proceed immediately to the American capital.

It is understood that Senator De Zamacoia will take up the diplomatic end of the case at Washington for General Huerta and that he will act unofficially as the provisional president's representative with sufficient power however to undertake negotiations.

What proposals he has been expected to place before President Wilson and Secretary of State Bryan are not known generally but it is believed that he will urge the necessity of more cordial operation between the two governments and even recognition in order that the best interests of both be conserved. It is asserted that President Wilson will be assured of the good faith of General Huerta in refraining from

PROPOSE SUIT AGAINST "JEWELRY COMBINE"

GOVERNMENT SEEKS TO CURB ACTI-
VITIES OF MIDDLE-MAN

National Wholesale Jewelers As-
sociation Will Not Contest Suit—
Decides To Accept Government's
Opinion.

NEW YORK, Sept. 4.—A suit in equity to obtain from the federal court an injunction under the Sherman law against the so-called "jewelry combine" to curb the activities of the middle man or jobber, was proposed for filing today by United States district attorney Marshall. Attorneys for the jewelry manufacturers and wholesalers, it was said, consented to a friendly settlement of the question. The suit it was announced later, will be filed in the federal court shortly, probably tomorrow. It will not be contested by the National Wholesale Jewelers' association, the largest of the different organizations according to Felix H. Levy counsel for the association. Mr. Levy in a statement tonight declared that the association has acquiesced in the government contention that the actions of the association although not intended or known to be in violation of the Sherman anti-trust law has in fact been construed by the department of justice to be in violation of that law and accordingly the association has decided to accept the government's opinion and will promptly confirm its procedure to the provisions of the court order.

The postponed petition asserts that the National Wholesale Jewelers' Association, organized in Detroit June 11, 1908, excluded from membership all who are not recognized as "legitimate" wholesalers and jobbers. It also asserts that the National Association of Manufacturing Jewelers organized June, 1910 in Rhode Island, was to co-operate with the wholesalers association, to prevent retailers from purchasing except through the jobbers.

There was a flutter of surprise when he arose to make the opening argument for the defense. Young Mrs. Caminetti was not present to listen but the defendant's mother and Mrs. Diggs were.

Judge Van Fleet has said that his charge tomorrow will occupy not more than 25 minutes. The defense has but twenty minutes left and the prosecution and hour for further arguments. Allowing for no delay, the jury should have the case by a quarter to twelve tomorrow.

GEORGE M. COHAN AND PARTY INJURED IN AUTO ACCIDENT

Machine Strikes Wagon and Several
Are in Hospital—Recovery of Co-
han's Daughter Doubtful.

Hartford, Conn., Sept. 4.—Thrown from their speeding automobile when it struck a garbage wagon two miles from this city today and seriously injured, George M. Cohan, his 17-year old daughter, Georgia Cohan, Wallace Eddinger, leading man for Mr. Cohan's new play, Francis Xavier Hope, Mr. Cohan's commercial secretary and William Van Buren, Eddinger's chauffeur, were rushed to the Hartford hospital, where at a late hour tonight it was said that Mr. Cohan and the other men would recover, but that the recovery of his daughter is doubtful.

The party was coming from New York to Hartford to begin rehearsals for the new play, which is to be tried out here. They were in a hired car. Two miles south of Hartford, Van Buren, who was at the wheel, turned out to pass a wagon. The driver of the wagon turned to the left and the automobile struck the horse and went into an embankment and turned turtle. All five passengers were thrown out. Passing automobiles were used as ambulances to take the injured to the hospital.

GOVERNOR COMMUTES BOY'S SENTENCE TO LIFE IMPRISONMENT

Decides That Robert Morgan, 19-
Year-Old Slayer of Virgie Hart
Is Too Young to Die.

Portland, Ore., Sept. 4.—We are not going to hang your boy tomorrow," this message was telegraphed today by Governor West to Mrs. Susie Morgan of Richmond, Ky., mother of Robert Morgan, a 19-year-old youth, sentenced to die tomorrow for the murder of Virgie Hart in Clatsop, Ore., last fall.

Morgan and the girl were childhood sweethearts and he killed her when he met her on the street with another man. Morgan is a deserter from the navy.

Governor West commuted, tonight Morgan's sentence to life imprisonment. "He is too young to be hanged," said the governor.

Since his arrest ten months ago the youth's hair has turned from raven black to gray and he has grown two inches in stature.

SEARCH FOR MISSING GIRL.

Crookston, Minn., Sept. 4.—Three hundred people of McIntosh county searched the county all last night and today for the three year old daughter of William Ganshaw, a farmer residing a few miles south of Erskine. The girl has been missing from the farm since 3 p. m. yesterday. Those searchers not exhausted by their efforts will continue tonight. Many others are joining the searching.

The parents are frantic and fear the child has been carried away by the leopard at large in this section. Recent depredations by the savage beast have been reported.

CHARGED WITH MANSLAUGHTER.
St. Louis, Sept. 4.—A warrant charging manslaughter in the fourth degree was issued here today against Mrs. Margaret McWilliams, who helped make the dumpings which several weeks ago caused the death of Mrs. Harry Neff and the serious illness of two other persons beside Mrs. McWilliams.

CAMINETTI'S FATE WITH JURY TODAY

PRISONER'S BROTHER MAKES OPEN-
ING ARGUMENT FOR DEFENSE

Declares That Case Has Simmered
Down to Intent and Purpose of
Reno Trips—Jurors Expected To
Have Case By Noon.

SAN FRANCISCO, Sept. 4.—The fate of F. Drew Caminetti, charged with white slavery, will rest in the hands of a jury by noon tomorrow. Given the same charges, the same admissions, the same judge to make the same rulings on virtually the same evidence and the same defense to oppose it, his chance of a verdict different from that found against his companion, Maury I. Diggs, lies in the fact that twelve different men are trying him.

As the defendant's own brother put it to the jury today, "This whole case has simmered down to a single issue—namely, what was the intent and purpose of the trip to Reno? The whole evidence tends to show that the defendant left Sacramento because he feared immediately, arrest and articles about to be printed in the newspapers. No one but a man crazed and maddened by fear of a rearrest would have gone on that crazy trip—none but a lunatic."

"We do not claim that fight is a defense for crime, but when seeking for a motive, the state of mind must be considered," said Theodore Roche arguing for the government.

The most striking divergence in the course of the Diggs and Caminetti trials was the unexpected appearance late today of Anthony Caminetti Jr., as an advocate in his brother's defense. Young Caminetti had sat at counsel's table with his brother's lawyers throughout the trial but it was not suspected that he formed part of their strength.

There was a flutter of surprise when he arose to make the opening argument for the defense. Young Mrs. Caminetti was not present to listen but the defendant's mother and Mrs. Diggs were.

Judge Van Fleet has said that his charge tomorrow will occupy not more than 25 minutes. The defense has but twenty minutes left and the prosecution and hour for further arguments. Allowing for no delay, the jury should have the case by a quarter to twelve tomorrow.

DID NOT CONSIDER PROPOSAL FOR SETTLEMENT OF STRIKE

Calumet, Mich., Sept. 4.—After a conference at Houghton today the copper mine managers announced they had not considered a proposal for a settlement of the strike as submitted by President Moyer of the Western Federation of Miners. It was the proposal which Mr. Moyer framed after a conference with Governor Parris at Lansing. The managers' objection was that the plan does not entirely eliminate the Western Federation of Miners, which the operators are determined not to recognize.

Federation officials will urge President John P. White of the United Mine Workers of America to visit this district.

Although the troops no longer will be used to guard mine property in the copper miners' strike zone, Sheriff Hepting of Keweenaw county decided today there is no present need of special deputies. The county supervisors have placed the situation in his hands.

ATTEMPT TO FINISH TARIFF BILL TODAY

Democratic Leaders Begin
Supreme Effort to Pass Mea-
sure Saturday

FINAL CAUCUS THIS MORNING

Compromise on Income Tax Rate Drafted
By Senators Williams and Simmons to
Be Adopted Without Much Change

AGREE TO SCORE OF PARAGRAPHS

WASHINGTON, Sept. 4.—Democratic leaders of the senate will begin a supreme effort tomorrow to complete the tariff bill and pass it before adjournment Saturday night. As a part of the program the senate tonight adjourned until 2 o'clock tomorrow afternoon; and the final session of the Democratic tariff caucus will be held tomorrow morning.

A compromise on the income tax rate, reporting a further concession to the "insurgent" advocates of an increase on large incomes, has been drafted by Senators Williams and Simmons and it is believed it will be adopted without much opposition at tomorrow morning's caucus. It proposes to increase the "additional tax" rate on incomes of \$75,000 to \$100,000 from 2 to 3 per cent and on those ranging from \$100,000 to \$500,000 from 3 to 4 per cent.

Kern Sends Out Notices.
Senator Kern, the Democratic leader, sent out notices tonight to all absent Democrats to be in their seats for the balance of the week. The senate drilled away all day long at paragraphs previously passed over, finally agreeing to more than a score. Senator LaFollette, just before adjournment, offered an amendment providing that meats imported from foreign countries must be accompanied by a certificate whose form shall be prescribed by the secretary of agriculture testifying to the health of the animal and its fitness for human food. After some debate the provision went over until tomorrow.

Eleven European nations have filed formal protests through their diplomatic representatives here against the provision in the Underwood-Simmons tariff bill granting a 5 per cent reduction of duty on merchandise imported into this country in American vessels. The list includes Great Britain, Germany, France, Italy, Austria, Spain, Sweden, Norway, Denmark, Belgium and the Netherlands.

President Wilson sent the list to the senate today in answer to a resolution asking for information on the subject. Most of the protests were filed several months ago with the state department or at the white house and sent to the senate finance committee, but no made public.

Allege Reduction Violates Treaty.
The nations protesting allege that the five per cent reduction violates existing treaties. John Bassett Moore, counsellor of the state department in a letter to the president, which accompanied the message interpreted the treaties in question to mean "That neither contracting party shall charge a lower rate of duty on merchandise imported in vessels of the other contracting party."

Secretary Bryan, in another letter, said that beyond the filing of the formal protests, the nations interested had not pursued their contentions. France, however, announced that if the provision was adopted she would adopt a similar one and like action is expected from the others.

The provision will not be passed upon until tomorrow. An amendment to the silk fabrics paragraph of the tariff bill substituting for the ad valorem duty of 45 per cent a series of specific duties ranging from 45 cents to \$2.50 per pound, was adopted today by the senate.

REAL EXISTENCE OF OPIMUM RING.

FALLING LADDER FRACTURES CHILD'S SKULL

Ruth Strang, 3 Years Old, of Roodhouse, Dies From Accident at Passavant Hospital.

The falling of a stepladder beneath which little Miss Ruth Strang, daughter of Mr. and Mrs. W. B. Strang, was playing Wednesday evening, was the cause of her death at Passavant hospital Thursday evening at 6 o'clock from fracture of the skull. In the inquest held at the hospital by Coroner Wright it was brought out that the accident was caused by the backing of a horse against the door on which the ladder was leaning. The horse and buggy were within the Strang barn and other children were playing was so placed that when the hind wheel of the buggy struck the door it fell striking her on the head. She was brought to this city at once, passing away about twenty-four hours after the accident.

The child was the daughter of Mr. and Mrs. W. B. Strang of Roodhouse. The remains were sent over the Alton Thursday evening to her home for burial.

The coroner's jury was composed of Daniel Bagan, foreman; John S. Magill, J. W. Priest, John Olean, Herman Mehner and Mr. Shafter.

CAIN & SONS BUY PROPERTY ADJOINING THE WABASH

Story is That Firm's Plant May be Established There at Some Later Time.

J. H. Cain & Sons have acquired three lots on West Lafayette avenue, lying between that street and the Wabash railway, just west of the Harrigan property. Each lot is 66 by 175 feet in dimensions, so that the tract of land is practically square. The west line is twenty feet east of West street and the property now has on it a large warehouse which Cain & Sons have used for a number of years. When asked yesterday if the firm intended to erect a building there for its main business, John D. Cain said that no change was contemplated at present and that the property had been acquired because suitable and valuable for their business. Although Mr. Cain was unwilling to make any admissions along this line the general supposition is that eventually Cain & Sons will have their mill and feed business established in the new location which is a very desirable one. With their extensive business, handled from buildings located on a railroad, the firm would save a large amount each year now expended for haulage.

Their fathers had gone to the station to make inquiries of the conductor when the train should arrive, but were pleasantly surprised by the arrival of the missing ones themselves. They had left the city, it is thought on the 8:30 train for the east Wednesday morning.

A Store With a Double Service

It is gratifying to us to note the increasing number of farmers who are finding out that at this store they can exchange their produce for both groceries and drugs, the prices we pay them being the very highest the markets make possible. People in Jacksonville have learned, too, that we have exceptional offerings of country produce along with the other attractions of our store and are appreciating the service which can be afforded from our two departments.

If by some chance you have never visited this store and are not familiar with its absolutely clean and sanitary condition and with the high class of goods we carry, then let us suggest and hope for an early visit, assuring you of a most cordial welcome.

One pound of wheat flour, costing 2 1-2 to 3 cents, yields twice as much nourishment as a pound of meat costing 15 to 30 cents per pound.

MANUEL HAS GORGEOUS WEDDING CEREMONIAL

Deposed King of Portugal Is Married to Princess Augustine Victoria.

Sigmaringen, Sept. 4.—Princess Augustine Victoria, daughter in Prince William of Hohenzollern, and Manuel, the deposed king of Portugal, were married with the rites of the Catholic church today in the ancient castle which has been the home of the bride since her birth. The religious ceremony that joined the couple in wedlock was performed by Cardinal Netto, the late archbishop patriarch of Lisbon. The bride was given away by her father. Four princesses, representing as many of the royal families of Germany, attended her as bridesmaids.

The marriage service was performed in the chapel of the castle. The spirit of the affair was solemn and impressive, while the costly gowns and jewels and the showy uniforms of distinguished personages furnished a regal stage setting.

Only the close relatives of the two families and a few of the highest dignitaries found place in the small chapel of the castle where the ceremony was performed. The other guests, including several score of princes and princesses belonging to all of the royal families of Europe, were stationed according to their rank, in the various salons and halls through which the bridal procession passed.

A royal salute and a blast of trumpets announced to the waiting populace the conclusion of the wedding ceremony. A mighty roar of cheers went up from the enormous crowd that thronged the vicinity of the castle. In response, the newly-married pair appeared upon the balcony of the castle and smilingly bowed their acknowledgements. The bride was flushed and radiant as she appeared upon the balcony, led by the bridegroom.

The wedding presents received by Manuel and his bride were so numerous that columns would be required to give a complete list of them. They included a magnificent set of pearls and diamonds from the king and queen of Spain, an emerald and diamond necklace from the king and queen of Italy, and several costly articles of jewelry from the members of the German imperial family. Other appropriate presents were received from nearly everybody present at the marriage. One of the presents from Manuel to his bride was a very old emerald ring which was once the property of Catherine of Aragon, wife of King Henry VIII. of England.

The bride of today recently passed her twenty-third birthday. Her father is head of the second non-reigning and probably the oldest, branch of the House of Hohenzollern, of which Emperor William is head of the royal branch. The grandfather of the bride was Prince Leopold of Hohenzollern-Sigmaringen, whose wife was the Infanta Antonia of Portugal. She was a sister of ex-King Manuel's grandfather, which makes the bride and bridegroom of today second cousins.

Ex-King Manuel is of the same age as his bride. He was born at his mother's estate of Villavicosa, not far from the Spanish border. Before he was eighteen years old he served abroad the Portuguese man of war Africa as a midshipman. He was eighteen years old on February 1, 1908, when he succeeded to the crown of Portugal through the assassination of his father, King Carlos, and his elder brother, Crown Prince Luis Felipe. A band of men fired upon the members of the royal family while they were driving in an open carriage through the streets of Lisbon. The king and the crown prince were each shot three times. Manuel was slightly wounded.

MANY INDIANS WITH THE 101 WILD WEST.

Big Show Will Be in Jacksonville September 10th.

The dance is the dominant feature of the Indian's life. He is born, baptized, married and dies amid the jumble of shuffling feet, gyrating bodies and the beating of tom-toms. It expresses joy and it is the symbol of grief and bereavement. It is the resort and accompaniment of momentous exploits and the concomitant of routine duties.

More than a dozen different tribes of red men are represented among the aborigines with the 101 Ranch Wild West, which will visit this city on Tuesday, September 16, at West Lafayette avenue and Chestnut St. Their native dances, ancient ceremonies and elaborate rituals are, to many, the most entertaining part of the performance. The 101 Ranch is in the midst of the home of the Great Plains tribes at Bliss, Oklahoma. Over this country, less than fifty years ago, ranged bands of Comanches, Cheyennes, Arapahoes, Kiwas, Pawnees, Osages and other tribes. Wrinkled chiefs and squaws of these wild old days have left their brush houses and dug-outs and tepees to display for the 101 Ranch show patrons their customs and rites.

DEFENDS KANSAS.

Girard, Kas., Sept. 1, 1913.

Editor Journal: I notice in last week's Journal a short item from J. J. Rodgers telling of his trip through the western states and of course Bleeding Kansas fell in for a punch. While Mr. Rodgers' statement will hold good only in part, he has failed to travel through southeastern Kansas or his saying would be quite different. I venture to say that Mr. Rodgers traveled through southern Illinois, on down in Egypt, he could say he never saw an ear of corn on the spindling stalks. Kansas today is ranked in the black list on drought and the shortage of the corn crop, but here in Crawford county, in many places there will be some corn, but a very small yield. A week or more ago while on a six day vacation from rural route work, I made a trip to my little farm, seven miles south of Girard, and I found a field of eight acres of corn that was green and the corn fairly good. It was a surprise to me. So Mr. Rodgers will take note; all Kansas is not in the spindly line.

Farmers are cutting up most of their corn as a good substitute for hay. A word from the crop question. I moved to Kansas in 1887 and settled on the farm I now own. I paid for 80 acres \$2,000. A good piece of dirt, rich for Kansas. I lately optioned it to a coal company for \$85 per acre, or \$6,800 for the coal and \$50 an acre for the surface, as much as the company will want for mining purposes. So my Kansas land will bring a neat sum. Since I came to Kansas I have done well on crops. Some years I get for wheat over \$250; this is good on a small investment, but of course Morgan county land is beyond a poor man's bank account. A man with plenty of money can buy land in your county and a good place to hide away surplus money. Well, Mr. Journal, I am on my hood-doo number, 13 years, as rural mail carrier on Route 3 out of Girard and feel good for 13 more years. Jam R. Clerihan.

"WE BANISH YOU WITH OUR SWORDS"

Inscription Painted on United States Embassy at Tokio During Recent Trouble.

The Manila Bulletin of recent date contains an account of an anti-American demonstration in Tokio, Japan, during the recent agitation over the California land law, which was suppressed before obtained by the press in the United States. According to the Manila paper, which was brought to this office by F. W. Harper of that city, who is now a guest of Mrs. Harner's mother, Mrs. Sanders Nunes of Allen avenue, the demonstration caused great excitement in the Japanese capital and was kept from the foreign press by special order of the mikado's government.

"We Banish You With Our Swords" was painted on the American embassy in letters a foot in height, even the latter part of June, when the news came to Tokio of the action of the California legislature. The full inscription read: "Oh, you, the citizens of the U. S. A. You now have become the enemies of liberty, justice and humanity. With such a people as you we cannot live a moment on this earth. By the command of the Almighty, we banish you with our swords. Which are responsible, may you ask?" The Manila Daily Bulletin received news of the event from a representative of the "China Press," who was successful in communicating with it in spite of the Japanese censors. In the opinion of the Manila paper these sentiments, although not expressions from persons in authority are far more widespread than Americans imagine. They have been propagated by the vernacular press of the country and by means of anti-American meetings.

RATHER BUY THAN RAISE POTATOES.

Montgomery, Ala., Sept. 4.—Despite the fact that central Alabama has a soil splendidly adapted to the growing of Irish potatoes, the late crop which is now being gathered is so small that it is not sufficient to supply the demand of the state for two weeks. Much disappointment is expressed at the state agricultural department, where the principal effort of the past year has been the preaching of the doctrine of diversification. Instead of planting a variety of crops the farmers generally have placed their entire reliance in cotton. Fortunately the cotton crop this year is good and no great inconvenience will be felt as money will be plentiful and the farmers can afford to pay the price asked for northern potatoes. Very general diversification is expected next year, however, as even the most sanguine cotton farmer does not hope for four big cotton years in succession.

GIANTS SPLIT DOUBLE
BILL WITH BROOKLYN

MARQUARD "BLEW IT" IN FIRST GAME.

Second was a Pitchers' Battle Between Tedlow and Yingling—McGraw Gives Rating Order—Most Radical Shift Since 1911.

New York, Sept. 4.—New York and Brooklyn split even in a double header here today, Brooklyn taking the first game 6 to 2, while the champions captured the second 2 to 1. The first game went Brooklyn's way when Tedlow experienced one of his old-fashioned blow-ups in the sixth inning, the visitors scoring all their six runs in this inning.

The second game was a pitchers' battle between Tedlow and Yingling. Both were very effective, but three of the five hits made off Yingling were bunched in the third and resulted in Brooklyn's defeat.

McGraw gave his batting order the most radical shift since the club became a pennant winner in 1911.

BELFORD BELL EASILY WINS \$3,000 MINNEAPOLIS PURSE

Takes Feature Event at Hamline in Straight Heats—Uhlund Will Attempt to Lower Record Today.

Hamline, Minn., Sept. 4.—Belford Bell had an easy time in the feature race here today, taking the \$3,000 Minneapolis purse in straight heats. The track was slow from a two days' rain. Uhlund will make his postponed attempt to reduce the world's trotting record tomorrow.

ALL THREE EVENTS AT CHARTER OAK PARK WON IN STRAIGHT HEATS

Jones Gentry Takes the 2:04 Pace, Lady Gratton the 2:12 Trot and Reusens the 2:20 Trot.

Hartford, Conn., Sept. 4.—A stiff wind that blew across Charter Oak Park this afternoon had considerable effect upon the time made in most of the races. All three events were won in straight heats, Jones Gentry having no trouble in the 2:04 pace, Lady Gratton winning as she liked in the 2:12 trot and Reusens being an easy victor in the 2:20 trot.

Footie Prince made most of the going in the 2:04 pace but in every heat Murray sent Jones Gentry to the front in the drive down the stretch and won handily.

THE SEASHORE GIRL.

The Prettiest Bathing
Cap in Many a Day.

BATHING CAP IN NELL ROSE.

Two long ends of Nell rose silk cross at the back of this cap and are drawn snugly around the head and tied in front in a perky bow, the cap being held firmly thus over the hair. In front is a visor flap of silk, which may be turned down over the eyes.

Concerning Women.

Mrs. Waldorf Astor, whose home is now in England, but who was born and brought up in Virginia, is said to be immensely popular with her husband's constituency in Devonshire. She made five speeches in two days recently and is quite a queen in Plymouth.

Mrs. Frank B. Tracy, who recently resigned the presidency of the Shutt-in society of Boston, has been engaged in the work for fifteen years. She was presented with a gift in gold in appreciation of her faithful services. Mrs. Tracy is the wife of the editor of the Boston Transcript.

The famous girls' school at Ogontz has at last acquired the estate upon which the school is located. It was the property originally of Jay Cooke, the financier. It passed into the hands of the members of the faithful, who were never willing to sell it until it has now passed into the hands of Miss Abby A. Sutherland, who has conducted the school for a number of years. The price paid was \$500,000 for 200 acres.

The co-eds of the Ohio State university have decided that they will use no more slang. Miss Caroline Breyfogle, dean of the women, and several other members of the faculty are in favor of the campaign, which has been started in earnest. The hall in which the girls meet is called the "gab room," and the dean has offered \$5 for a name to substitute for this slangy one.

Summer One Piece Frocks.

A liberal supply of one piece frocks of thin cottons and linens should be included in every summer wardrobe, and such frocks are to be had in pretty materials in the shops at surprisingly low prices, or they may be made up by the home seamstress at even smaller expense.

Sheer cotton crapes make ideal dresses of this kind for hot days, and

GARDEN PARTY FROCK.

a charming model seen recently was of embroidered marquisette, which formed the bodice. On the blouse at the waist line in front were two little pointed tabs, which extended below the waist line, giving the effect of a bolero. The edges of the bolero were outlined in heavy embroidery.

The skirt of the frock was formed of cotton crepe. A delightful model of a more elaborate character is illustrated, which would be especially pretty for a garden party.

Starch For Laces and Muslins.

Mix a small quantity of corn flour smoothly with cold water. This will be found excellent for lightly stiffening all delicate and lacy fabrics, including veils and neckwear of sheer materials.

BROWNS COME TO LIFE AFTER LOSING NINE SUCCESSIVE GAMES

St. Louis, Sept. 4.—After losing nine successive games St. Louis came to life this afternoon and won from Chicago in eleven innings, score 5 to 4. Rudolph Schwenk, recalled from Saginaw, Mich., twirled for the home team and pitched a creditable game and but for his wildness in the second inning, when Chicago scored a brace of runs on two passes and singles by Chappell and Schalk, he would have won in nine innings. STATISTICIANS MEET IN VIENNA.

Vienna, Sept. 4.—Government statisticians and census officials from many countries, including the United States and Canada, met in Vienna today for the opening of the fourteenth session of the International Statistical Institute. The institute was founded in 1885 for the purpose of promoting the progress of administrative and scientific statistics, and especially of securing as far as possible the comparability of international statistics by uniform scales and compilation.

NAPOLEON'S ARMY EAGLES.

They Were Patterned After the Ancient Symbol of the Caesars.

Eagles lasted only from 1805 to Waterloo. Before then it had been the custom in armies to carry huge unwieldy flags mounted on poles which, while they afforded a rallying point for their corps, also drew the enemy's fire. Examined for Napoleon to revive the ancient symbol of the Caesars.

At first an eagle was presented to every battalion of infantry and every squadron of horse. But owing to the number of eagles captured this allowance was cut down. All battalion eagles were withdrawn and one eagle was carried by each regiment of foot and cavalry. In 1812 a still further reduction was made and in some cases line regiments were ordered to leave their eagles in their arsenal. These standards were also taken from all regiments of light cavalry and one eagle sufficed occasionally for an infantry brigade.

The eagle itself was eight inches in height and nine inches across the wings. It stood on a brass block three inches square and weighed three and a half pounds.

Modern colors, cumbersome as they are, are as nothing compared to the old ones, which were as difficult to hide as the big drum. Thus there existed a regular system for saving eagles. Sometimes, when the tide of war ran adversely, they were unscrewed and put into haversacks or great coat pockets. At other times they were buried, thrown into ponds or rivers, broken up, hidden in hollow trees, and, most humiliating of all, stuffed into some dead horse, to be hauled out subsequently.—Harper's Weekly.

COULDN'T SEE THE JOKE.

Charles Sumner's Woeful Lack of a Sense of Humor.

It was a rainy afternoon, and Mr. Longfellow was obliged to go out, leaving Sumner stretched on the sofa reading Lowell's volume. When he returned he asked Sumner how he liked the poems, and Sumner replied: "They are admirable, very good indeed. But why does he spell his words so badly?" Longfellow said that he attempted to explain that the poems were purposely written in the New England dialect, but Sumner could not understand.

One summer at Nahant I dined at Mr. Longfellow's with Mr. Sumner and some others. Sumner was a collector of china, about which he knew a great deal, as he did about many other things. He told us a story about going to see Lord Exmouth's collection and how fine it was. When he was taking his leave Lord Exmouth gave him two rare plates and offered to send them to his lodgings, but Sumner would not be parted from his prize and insisted on taking them home with him in his cab. When he had concluded his story, which was interesting, but long in narration, Tom Appleton, Mr. Longfellow's brother-in-law, who was present, said, "A pleasing tale, illustrated with two plates." Everybody laughed, and Sumner, looking about most good naturedly, said: "What are you all laughing at? I suppose Appleton is up to some mischief, but my story is quite true."—From "Some Early Memories," by Senator H. C. Lodge, in Scribner's Magazine.

Removing Paint Stains.

Paint is one of the most usual of the unavoidable stains which afflict the skirt worn out of doors. "Fresh paint" signs are all very well if they are seen in time, but they have an inconvenient way of appearing boldly before the eyes after damage has been done. The sooner a paint stain is removed the easier the task of removal will be. Spread a little dry laundry or cornstarch around the spot to keep the paint when moistened from spreading. Then wet the stain with turpentine. After a few minutes moisten again. Scrape the paint up with a dull knife or a spoon handle and wet again with turpentine. When there is no trace left of the paint rub the spot dry with a clean cloth and brush off the starch. —Washington Star.

Traveling Sand Hills.

On the coast of Pomerania there are large tracts of sand heaped up by the wind, hundreds of yards in breadth and from 60 to 120 feet high, and these hills, propelled by the wind, move steadily in an easterly direction. The speed at which these great hills travel is from thirty-nine to fifty-six feet a year. Pine woods, which sometimes come in their line of march, can not stop them and are completely destroyed. The branches are rotted off by the sand, and nothing is left of the tree but the bare stems, which after a few years wither and die.

Difficulties of the Naturalist.

At one end or the other of every animal lies a danger which makes the closest investigation impossible. To study the mule we must hold him by the head, but to study the bull we must have a tall hold as a vantage point.—St. Louis Globe-Democrat.

THE WORLD'S LATEST FINANCIAL AND MARKET NEWS

STOCK MARKET BECOMES STEADIER

NOTHING IN DAY'S NEWS TO AL-
TER SPECULATIVE POSITION.

Speculation is Near Deadlock and
Volume of Business is Small—
The Movement, in Most Cases
Within Fractional Limits, is Main-
ly Downward.

(By Associated Press)
New York, Sept. 4.—While no re-
covery was made today from the
week's decline in stocks the market
was steadier. The various influences
which combined to depress specu-
lations appeared to have worked them-
selves out and there was nothing in
the day's news to alter the specu-
lative position.

The ease which some stocks de-
clined on sporadic selling tended to
restrict operations for the long ac-
count. The result was that specu-
lation was near a deadlock and the
volume of business was small. The
main movement was downward, al-
though it did not exceed fractional
limits in most cases. Of the stand-
ard issues, Union Pacific and Read-
ing, against which most pressure
was directed, were heaviest.

There were other factors than the
technical position of the market
which tended towards carrying the
decline further. There was a firm-
er tendency in the money market
and toward the close of the day it
ran up to 4 1/2 per cent.

The highest rate for months. Money
market conditions reflect the con-
tinued demands for funds for crop
moving purposes. These calls on
New York banks, together with the
financing incident to the Southern
Pacific subscriptions, have made
heavy encroachments upon reserves.
Copper metal scored a further ad-
vance to 16 1/2c; copper stocks were
relatively firm.

NOTES FROM THE LABOR WORLD.

It is estimated that the unprecedented number of 50,000 persons are out of employment in Berlin.

Swedish farm laborers who are hired by the year receive an average wage of \$85 annually, with board and room in addition.

Last year there were 1,852,241 workers employed in factories in Great Britain, 690,834 of whom were engaged in the textile trades.

According to the latest reports Russia has 25,513 co-operative societies (mostly agricultural) with a total membership of 6,544,194.

The puddlers in the employ of the Reading Iron company, Reading, Pa., 3,000 in number, have secured an increase in pay from \$4.75 to \$5 per ton.

The first serious agitation for less hours of labor, better wages and protection of operatives in American factories was begun in 1825.

The strike of the granite cutters of Greater New York, which began May 1, has ended, the strikers returning to work with a wage increase of 50 cents per day.

The present year marks the thirtieth anniversary of the first strike of American telegraphers. The strike lasted thirty days and involved 67,000 men.

Oscar F. Nelson, president of the International Federation of Postoffice Clerks, and vice president of the Chicago Federation of Labor, has been appointed state factory inspector of Illinois.

A department of labor is contemplated in the new charter which is being drafted for Detroit. One of the chief duties of the department will be "to adjust the labor market through co-operation of the large employers."

The Korrespondent, the official organ of the German Printers' federation, is said to have a circulation of 50,000 copies. It is the only trade union organ in Germany which is not supplied free to the members of the union.

The International Typographical union is distinguished among American trades unions as being the only one which demands equal hours, wages and conditions of work for men and women. The organization now has branches throughout the United States, Canada, Cuba, Hawaii, the Philippines and Porto Rico.

During the three summer months the farm laborer in Sweden works on an average of ten and one-half hours a day. For this he receives pay at the rate of 66 cents a day, providing he pays for his board and room in addition. Unmarried women working on the farm receive an average yearly wage of from \$50 to \$60, with board and room.

Benefit schemes, emigration and international reciprocity, and the amalgamation of all international building workers' unions are among the subjects that will receive attention at the annual meeting of the International Stone Workers' congress, which is to be held in Brussels during the second week of October.

An international agreement governing the disposition of labor disputes and affecting the working conditions of the Journeymen Stonecutters' Association of North America and the Bricklayers, Masons and Plasterers' International Union of America, has been ratified by the executive officers of the two organizations, and is now being sent out through the United States and Canada to their local branches to take into effect immediately.

LAW ON WEIGHTS AND MEASURES IS STRICT

LEGISLATURE PROVIDED PENALTIES FOR SHORT WEIGHING.

William N. Hairgrove Calls to Notice Law Designed to Protect Consumer From Dishonesty—Many Cities Have Inspectors Who Watch for Violations.

William N. Hairgrove, yesterday, called attention to a new law passed by the last general assembly fixing standard weights and measures and providing penalties for short weights. The law which gives weights on all kinds of grain and food stuffs is of interest to every consumer. Many cities have strict laws governing weights and measures and provide for a weighmaster or inspector whose business it is to see that every consumer gets what is coming to him. Short weights sometimes occur through error and no doubt sometimes through intention. Mr. Hairgrove, in calling attention to this law also made some comments on the subject.

The law provides in Section 9 as follows:

Whenever any of the following articles shall be contracted for, or sold, or delivered, and when no special contract or agreement shall be made to the contrary, the weights per bushel or barrel or divisible merchantable quantities of a bushel or barrel shall be as follows:

Section 10. Whoever, in buying any of the articles of property mentioned in the preceding section, shall take any greater number of pounds thereof to the bushel, barrel or cubic yard or divisible merchantable quantity of a bushel, barrel or cubic yard, or in selling any of said articles shall give any less number of pounds thereof to the bushel, barrel or cubic yard or divisible merchantable quantity of a bushel, barrel or cubic yard than is allowed by said section, with intent to gain an advantage thereby, except expressly authorized so to do by special contract or agreement to that effect, shall be liable to the party injured in double the amount of the property so wrongfully taken or not given and ten dollars (\$10.00) in addition thereto, to be recovered in any form of action in any court of competent jurisdiction.

Mr. Hairgrove in commenting on the law said:

"This is a law that will protect the people and enforced might help reduce the high cost of living.

"While the city of Jacksonville, more than a year ago passed an ordinance on weights and measures, and for the testing of scales, and testing of measures yet the law has been practically inoperative by reason of the fact that no inspector has been appointed by the city council. When a person buys a peck of apples, which should contain 12 1-2 pounds, and takes them home and finds they have received only 8 pounds, they can recover in addition to double the loss that they have sustained \$10 for each time they have been cheated in their purchases by false weight. This will apply equally to purchases in other lines.

"In many cities the ordinance on weights is strictly enforced and coal drivers are often haled to city scales to see if loads they have correspond to the weight tickets.

"The state now protects each individual, in his purchase, and each time he can be well paid for the prosecution of the man that cheats him, and when an individual is prosecuted a few times for short weights, and short measures, he will either give good weights or go out of business. A mistake might occur and he pay a fine for it but if the mistakes keep happening in his favor his trade will disappear as soon as the public are advised of his unfair dealings. Every citizen when they find that they have been cheated in weights and measures should not only for their own protection

but for the protection of their neighbor and to accomplish justice to all concerned act in the matter. It would almost pay a good housewife to keep a good set of scales these times, with the high prices, and short weights, the candle is burning at both ends.

"Watch what you buy and see that you get what you pay for."

Central Illinois Association to Be Held in This City Next March—Supt. Gore Has Letter From Executive Committee.

A great gathering of teachers will be held in Jacksonville next March, when the annual meeting of the Central Illinois Teachers' association will be held here. W. A. Gore, superintendent of schools, received a letter from a member of the executive committee informing him that Jacksonville could have the convention if it was wanted and Mr. Gore promptly wrote that the Jacksonville schools would be glad to have the big meeting. There will probably be fifteen hundred delegates present and the program of addresses will include some eminent educators. Jacksonville has been fortunate in the number of conventions the past year and the Central Illinois Teachers' meeting will make a good number on the convention program for 1914.

ANNUAL SUNDAY SCHOOL PICNIC AT HEBRON.

Many Attend Picnic and Burgoon and Wins Ball Game With Prentice.

The annual picnic and burgoon of Hebron Sunday school, held Thursday afternoon and evening on the lawn of the church was successful from the standard both of financial gain and numbers in attendance. From three to four hundred members of the church and friends were present to partake of Jacob Stockton's delicious burgoon, witness the ball game and other activities of the afternoon and enjoy a real sociable good time. The ball game between Prentice and Sinclair was won by the latter by a score of 25 to 24. The game was none the less interesting because the teams were drafted especially for the occasion. Traa shooting was another sport of the afternoon which occupied a number of the young men present.

Although the purpose of the Hebron picnic is first of all social, the large number of people served with burgoon, as well as ice cream and non, made the occasion financially successful as well. Credit is due a number of the ladies of the church who worked hard in preparing for the picnic as well as to the superintendent, Arthur Swain, and the pastor, Rev. H. P. Cuto, for their part in advancing the prosperity of the Sunday school at all times.

SALOON QUESTION WILL BE SUBMITTED TO PEOPLE THIS FALL

Petitions With Necessary Signatures Filed With County Clerk Boruff

A petition to submit the question as to whether this precinct will continue to be anti-saloon territory to the voters was filed with County Clerk Boruff late Thursday afternoon. The petition, which needed legally but 942 names, contained 1307 and will insure submission of the question November 4.

Diarrhoea Quickly Cured.
"I was taken with diarrhoea and Mr. Yorks, the merchant here, persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose of it I was cured. It also cured others that I gave it to," writes M. E. Gebhart, Orleole, Pa. That is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. For sale by all dealers. (Adv.)
